EDUCATION

Master of Computer Application(MCA)

Bapuji Institute of Engineering and Technology, Davangere

12/2021 - 10/2023

8.1 CGPA

Bachelor of Computer Application(BCA)

Bapuji Institute of Hi-Tech Education - BIHE, Davangere

06/2018 - 10/2021

6.36 CGPA

PERSONAL PROJECTS

COWS LUMPY VIRUS DETECTION USING AI

- Detecting the Cow's Lumpy Skin Disease virus with Deep Learning entails creating and training neural networks on image data to recognize virus-related visual patterns. Analyzing distinct features in infected cattle skin, these models enable early and precise disease diagnosis, potentially curbing its spread and reducing economic losses in the livestock sector.

COCONUT PRODUCT INVENTORY SYSTEM

- The Coconut Processing Inventory System streamlines operations for coconut processing businesses. It manages product inventory, including coconut powder, oil, chips, and copper. The system tracks purchases, sales, and stock data, replacing time-consuming manual record-keeping. This efficient solution enhances productivity, reduces calculation time, and improves data storage.

INTERNSHIPS

Software Developer Intern

Acranton Technologies Private Limited
Davangere

10/2022 - 11/2022

Python Language

- Coding, Development, Design
